THE HAIR! THE HAIR!!

NO better evidence is wanting to allow the superiority of the Genuine Buffalo Oil, over other preparations, than that a number of Druggists are endeavoring to imitate it and foisting their miserable imitations on the public, for genuine. Read advertisement. Beware of Imitations.

The Genuine Buffalo Oil is fast taking place of all other articles to promote the growth, soften and beautify the Hair; its use gives it a softness that no other article does, and causes it to curl beautifully by free use it will darken and give the hair a satin gloss, it is highly perfumed and gives perfect satisfaction to all who have given it a trial. You will observe the signature of the proprietor: 'William Brown,' also 'Buffalo Oil,' imprinted on the bottle. In consequence of a counterfeit which has recently appeared and is now for sale, I have been persuaded to obtain a new label engraved on copper, for which I have secured a copy-right, entered according to an act of Congress in the Clerk Office of the District Court of Massachusetts. Any infringement will be dealt with according to law. For sale by

As a further security against counterfeits, I have taken out a copy right of the outside direction, entered according to act of Congress, in the Clerk's Office of the District of Massachusetts, in the year 1840. Any infringement will be dealt with as the law directs. It is purely a vegetable compound, and is now recommended by many of our first physicians. See certificates accompanying directions. SEVENTH SENATORIAL DISTRICT.

The Whigs, and all others friendly to the present National and State Administrations, are hereby notified that a Convention will be holden at Cherryfield, on TUESDAY the 10th day of August next, at 10 o'clock A. M. for the purpose of nominating a candidate for Senator for said district, to the next Legislature. Delegates will be selected on the following principle. Each town and plantation, one. Towns having 100 voters, two—200 voters, four and one delegate for each additional 100 voters. The district is composed of the same towns as for the last preceding ten years, with the addition of the town of Surry. July 14

☞ The Whigs of Kennebec meet at the Court House in Augusta, on WEDNESDAY the 28th inst., for the purpose of nominating County Officers.

☞ The Whigs of Somerset hold a Convention at Skowhegan, on THURSDAY, July 29th.

☞ The Whigs of Cumberland meet at Burrell's, in Gray, on THURSDAY, the 26th of August.

### WHIGS AWAKE!

It will be seen that the Penobscot division of the Whig Army is warned to meet in Convention by delegates on the 10th of August. It is time for the Whigs to look about themselves, and to make preparation for the contest with the hungry and expelled ex-office holders, who are determined if possible to get their hands into the public Treasury at the rate of $10 a day and all expenses. Our friends in other parts are moving in solid column, and there is no danger of defeat if every Whig will awake and do his duty. Of course every town will be fully represented. The Convention it will be seen, is to be held at Orono (Stillwater.) It will be remembered that the district is a new one, and includes the present county of Penobscot, the old district included a large part of Piscataquis. The centre of the district is therefore changed, and it was deemed right, considering the distance which our friends up river must travel, to call the Convention at Orono.

### LABORERS VINDICATED.

The hostility of the leaders of the locofoco party, for the last dozen years, to corporations and the American system of manufactures, is well known. It has been manifested in a variety of ways, even to denouncing factories, manufacturing villages, and the operators themselves. No means have been left untried to bring reproach upon the whole system and all connected with it. The idea of any virtue remaining in a girl after working a short time in a factory, or a freeman preserving his rights in the same, has been treated as utterly impossible. We confess that our acquaintance with the condition and character of many of the "operatives" in one of the largest manufacturing towns in New England, has caused us frequently to feel indignant at the vile aspersions which have been cast upon them by locofoco scribblers and spouters. We have long known that the charges made against the moral, physical, and political health of those engaged in the large factories of the country were false and cruel, and put forth only for political effect, and to arouse people of other pursuits, the farmers and others, to take a stand against them, and thus secure strength to locofoco leaders.

We rejoice, that at length Dr. Bartlett, a gentleman of eminent abilities, and formerly Mayor of the city of Lowell, has recently published a vindication of the laborers in the factories of that city from the vile aspersions of that prince of modern locofoceism, O. A. Brownson, and others of like kidney.

The Doctor says in reference to health, that, "*The manufacturing population of this city is the healthiest portion of the population*, and there is no reason why this should not be the case."

Of the moral condition of the females in the factories, on which Brownson and others have been luminously red-mouthed, the Dr. speaks in the following decided manner. We commend his remarks to certain men in this city, who, for political effect, have been guilty of the grossest misrepresentation of the character of these females, in utter disregard of the effect it might have upon them, if it could only be so managed as to gain a single vote by allowing denunciation of a system the necessary result of which they said was, to trample female virtue in the filth of pollution! Dr. Bartlett says:

The moral police of all the establishments is vigilant, active and rigid. While industry and good conduct are respected and rewarded, no violations of the excellent and judicious rules of the corporations, and no improper or suspicious conduct meet with any indulgence or toleration. It is only by maintaining an unimpeachable character that a girl can retain her situation in the mill, and when dismissed for any impropriety from one establishment, there is no possibility of her getting a place in any of the others. But a power vastly more active, all-pervading and efficient than any and all of these is to be found in the jealous and sleepless watchfulness, over each other, of the girls themselves. The great body of the girls are as virtuous as the female population of any part of New England; they have an honest and conservative pride in the preservation of their character and respectability as a class; and even if all others who are interested in their welfare should be remiss, there is no danger that they themselves will forget or neglect the obligations they owe to themselves and to each other. The strongest guardianship of their own character, as a class, is in their own hands, and they will not suffer either overseer or superintendent to trifle with this character with impunity. Their empire is despotic, and no superintendent nor overseer would keep his hands, if he failed to remove an obnoxious or suspected individual, whom the finger of censorship had pointed out.

A single but impressive fact is stated that is highly honorable to the females, viz: That the amount deposited in the saving's Bank by *factory girls alone* was, as stated by the Cashier, in round numbers, one hundred thousand dollars. It is known too, that many of the girls send a portion of their earnings to aid in the support of aged parents, or their younger brothers and sisters; while at the same time they contribute to benevolent objects and aid with their own money in support of the gospel. Miss Martineau says that an artizan population is the prophecy of the future and the beginning of the fulfilment. Truly said, for no where can freer thought or more definite and yet comprehensive political knowledge, in reference to the social influences of government, be found, than among the artizans of New England. They are born and bred free. They cannot be enslaved or trodden upon. They have a deep sympathy for each other, free to communicate, and fond of investigation and debate. That government which gives the most certain freedom and substantial enjoyment and security to the people, they love and will sustain.

And these men, thus educated and free, the leaders of locofocoism represent as base hirelings whose votes can be purchased with less than a bribe a mere nod!

Truth and duty require that such libels upon the character of American citizens should be corrected. And it is a satisfaction that an able hand has undertaken it.

MR. HAWKINS IN FRANKFORT AND HAMPDEN.—We understand that Mr Hawkins' labors in these towns have been attended with great success. He lectured at Frankfort yesterday afternoon. Before he commenced his lecture a procession of some forty men belonging to a sawmill in the town, headed by their employer, marched into the meeting house and took seats by themselves. After Mr. H. had spoken a short time, the feelings of the employer became so interested that he jumped up and said to his men: "Now my good fellows, I am going to sign the pledge you have followed me here in procession, and now if you are disposed to follow me to sign the pledge in procession, I should like your company." Many of the noble fellows, who were as much interested as their leader, immediately arose and followed him, and put their names to the Pledge of total abstinence from all that can intoxicate.

We understand that upwards of fifty subscribed the pledge before Mr. H. left Frankfort.

In the evening he lectured at Hampden, and at half past 10, left the people signing the pledge.

MASS MEETING.

There will be a general turn out this evening. We trust that the people will be punctual that the meeting may be organized by 7 o'clock. If the weather proves favorable we have no doubt that Mr. Hawkins will meet the expectations of all who hear him. He is to be here but a short time longer, and those who have a desire to hear him should not lose this opportunity.

☞ The weather all last week was superior for making hay, and the roads had become dusty and the surface of the earth getting rather dry, when down came a plenteous shower yesterday afternoon, and put the earth in fine order.

☞ The farmers in the interior begin to complain of the multitude of grasshoppers. They eat off the leaves of grass and heads of clover, and in this way will considerably reduce the crop. The grain too, it is said will suffer some from the same cause. The crop of hay in this vicinity will be large and finely cured.

THE LADY'S CABINET MAGAZINE for June, 1841.

This periodical the result of a union of the Philadelphia Visiter, Literary Pearl & Casket, is conducted with much talent, and its typography is executed in good taste. The number before us is entirely original, racy and attractive.

A plate of fashions for *Gentlemen* appears in this number. We suppose this must be upon the principle that a work designed to give instruction to a wife in domestic social affairs should be directed to young husbands and *vice versa*.

E. F. Duren is agent for the publication.

☞ J. R. Macomber has prepared a capital article in the form of paste for cleansing and polishing all kinds of metalic plate, silver, brass, tin, brittannia, knives and forks, &c. We have tested the article, and obtained the opinion of our help mate in favor of the Paste as being a superior article.

☞ OWNERS OF REAL ESTATE in this city should look well to the security of their title, as the time of redemption of real estate sold for Taxes of 1838, expires on the fifth of August next.

*Happy Effects of Temperance Reform in Ireland* The following unusual information is taken from a letter written by a gentleman of Dublin, to the "Leeds Mercury:"

"Our public hospitals bear abundant evidence also of the improved health of the people. I was informed lately by a young surgeon, that the want of broken limbs, &c. is severely felt, as subjects for young practitioners; also, that there is a greatly increased difficulty in getting bodies for dissection. In our largest hospitals there has been but one case of delirium tremens (whiskey fever) for several months past, and even that a doubtful one, although formerly it was not uncommon to have *twenty or thirty at one time*. Deaths from fever have decreased."

### Correspondence of the Tribune.

WASHINGTON, Thursday, July 15.

In Senate to-day Mr. Wright presented the resolution of a meeting of citizens of New York City, held at the Park in that city, a few days since, soliciting the interference of this government for the release of the American citizens, now prisoners of state at Van Dieman's Land.—On his motion the resolutions were ordered to be printed and referred to the Committee on Foreign Relations

Mr Talmadge presented a Memorial of citizens of New York city, and one of citizens of Richmond, Oswego Co. N. Y. for a Bankrupt Law.

The Resolution of Mr Buchanan was taken up calling for a list of removals from office since the 4th March, 1841, with the amendment offered by Mr Mangum calling for a list of removals and appointments from the 4th March, 1829, to 4th March 1841.

The amendment was agreed to. Mr. Benton expressed his desire of speaking on the resolution, and at his request it was laid over.

An interesting debate here occurred, which was commenced by Mr Clay of Ky., who said he would be very glad if Senators would consent unanimously to take up the Loan Bill from House, as the necessities of the Treasury required its immediate passage.

Mr Calhoun objected, as they were engaged on another subject the Bank Bill which he wished to finish first.

Mr. Clay explained the necessity of it. He stated the estimate amount of expenditures for the present year would be twenty four millions of dollars independent of new appropriations. This was two millions per month, and from a statement from the Treasury of the 13th inst he had learned that there was on hand but nine hundred thousand dollars, being barely a provision for a fortnight's supply of the wants of Government, and thus the immediate passage of the Loan Bill was required.

Mr Calhoun said he preferred another expedient, which he intended proposing: the temporary issue of Treasury Notes, which would relieve the Government much more speedily than a Loan.

Mr Clay was entirely opposed to this, and went for an old fashioned loan, that the people might see how much they were in debt. He referred to their tardy transaction of business, and the advance of the House.

Mr. Calhoun said it was effected by assailing the liberty of speech, and by a most dangerous rule which placed the right of debate of the minority in the hands of the majority.

Mr. Clay thought the public would not complain of it at all, and for one he was ready to resort to similar means for the transaction of their business when necessary. The great grievance to the people was the unnecessary protraction of debate, and it would be no grievance if, by such a measure, they did the business before them, and returned home in two months and a half.

Mr. King was amazed, when most of the time had been consumed by the Senator and his friends, that he should attempt to force a gag-law on them. Let him attempt it (Mr. Clay I will) and he might prepare to stay here till next winter. He wished the Bank Bill to be disposed of first, and said his friends would finish their amendments and be prepared for the question on Monday next. But the other side did not wish to take it now, until some of their absent friends returned; and yet they were accusing them of delaying the bill.

Mr. Benton rose to back his friends, and opposed all gag laws or previous questions, particularly to cut off amendments. They could finish their amendments and be ready for the question Monday night.

Mr. Clay said the Senators had made a proposition which they knew could not be acceded to, one of their friends being necessarily absent, on account of indisposition in his family. He advised gentlemen to keep good humor, and abstain from bullying and menacing, because if existing rules did not serve for the transaction of business, he was ready according to the Constitution to make the necessary ones. He gave notice that when the Senate came out of Executive Session he should move to take up the Loan Bill.

After further remarks by Messrs. Calhoun and Linn against taking up the Loan Bill, the debate was cut off by the expiration of the morning hour.

The Senate then went into Executive Session, and so remained during the day.

In the House the Fortification bill was argued and amended at great length in Committee of the Whole. No action was taken on it.

To get on in this world, you must be content to be always stopping where you are; to advance, you must be stationary to get up, you must keep down; following riches is like following wild geese, and you must crawl after both on your belly; the minute you pop up your head, off they go whistling down the wind, and you see no more of them. If you have not the art of *sticking* by nature, you must acquire it by art; put a couple of pounds of birds' lime on your office stool, and sit down on it; get a chain round your leg, and tie yourself to your counter like a pair of shop scissors; nail yourself up against the wall of your place of business, like a weasel on a barn door, or the sign of the spread eagle; or, what will do best of all, marry an honest poor girl, without a penny, and my life for yours if you do not do business! Never mind what your relations may say about genius, talent, learning, pushing, enterprise, and such stuff; when they come advising you for your good, stick up to them for the loan of a sovereign, and if ever you see them on your side of the street again skiver me and welcome; but to do any good I tell you over and over again, you must be a *sticker*. You may get fat upon a rock, if you never quit your hold of it. [Blackwood.

*Poisoned Cream Cakes.*—The Boston Transcript of Friday, says "We hear that several families were poisoned yesterday afternoon and evening, by eating cream cakes, purchased at the shop of a celebrated confectioner. One gentleman informs us, that himself and the rest of his family, eight in all were severely afflicted with vomiting and purging, and a dizziness of the head, but in the course of ten or twelve hours they nearly recovered The confectioner cannot account for the effect. Dr. Jackson, the celebrated chemist, has taken some of the cakes, and is engaged in analyzing them; the result is not yet known."

"Salts are in all his steps, manna in his eye,
In every gesture colycinth and rhubarb."

The character of an apothecary is so legibly imprinted on his front, that all his efforts to conceal it are useless. There is a bustling importance about him which did not belong to the fraternity of former times. It is said by a waggish writer, that the apothecary of former times was a very humble being and carried his drugs about with him in an earthenware vessel; and from a pot he carried, was derived from the profession of Apothecary. This, however, the modern sons of Galen would spurn, and would inform you that they received their appellation from Apothecarius, an ancient and eminent compounder of drugs.

### THE VILLAGE PREACHER:
BY CHARLES KIRK, ESQ.

Our proud infant, search the ponderous tomes of heathen learning Explore the works of Confucius examine the precepts of Seneca, and the writings of Socrates—collect all the excellencies of the ancient and modern moralists, and point to a sentence equal to the simple prayer of the Saviour. Reviled and insulted, suffering the grossest indignities, crowned with thorns, and led away to die, no imprecating curse breaks from his breast. Sweet, placid as the aspiring of a mother for her nursing, ascends a prayer of mercy for his enemies. "Father, forgive them" Oh! it was worthy of its origin, and stamped with the bright seal of truth that his mission was from heaven.

Acquaintances, have you ever quarrelled? Friends, have you differed? If he who is pure and perfect forgave his bitterest enemies, do you well to cherish your anger? Brethren, to you the precept is imperative you shall forgive, not seven times, but seventy times seven!

Husbands and wives, you have no right to expect perfection in each other. To err is the lot of humanity. Illness will sometimes make you petulant, and disappointment ruffle the smoothest temper. Guard, I beseech you, with unremitted vigilance, your passions; they are the genial heat that warms us along the way of life—ungoverned they are consuming fires Let your strife be one of respectful attentions, and conciliatory, conducts. Cultivate; with care, the kind and gentle affections of the heart Plant not, but eradicate the thorn that grows in your partner's path. Above all, let no feeling of revenge find harbor in your breast, let the sun never go down on your anger. A kind word an obliging action that be a trifling concern; has a power superior to the harp of David, in calming the billows of the soul.

Revenge is as incompatible with happiness as hostile to religion. Let him whose heart is black with malice, and studious of revenge, walk through the fields when clothed with verdure and adorned with flowers to his eye there is no beauty the flowers to him exhale no fragrance.

Dark as his soul, nature is robed in deepest sable. The smile of beauty lights not upon his bosom with joy; but the furies of hell rage in his breast, and render him as miserable as he would wish the object of his hate. But let him lay his hand on his breast and say, "Revenge, I cast thee from me: Father, forgive me, as I forgive my enemies," and nature assumes a new and delightful garniture. Then, indeed, are meads verdant and flowers fragrant, then is the music of the groves delightful to the ear, and the smiles of virtuous beauty lovely to the soul.

CHINESE POETRY. From "Wang Keaou Lwan Pih Neen Chang Nan: or, The lasting Resentment of Miss Keaou Lwan Wang," we take the following specimens of Chinese poetry. Here's a poetical assignation:

"In secret I take these words and send them to my lord,
But do not inconsiderately open your lips to other people!
This night the door of the fragrant apartment will not be locked,
And when the moon changes the shadows of the flowers, let my lover come."

And here is a Chinese lady in a passion, because her lover has deceived her:

"As I lean against my door post, and in grief and silence meditate on by gone scenes,
I sigh; alas! my dream of wedded bliss has vanished like a smile!
Love early life stirred up the rambling fibres of passion, and dragged the green and tender buds of my heart astray.
Rage now follows like a torrent, and shrinks these green buds to the withered red of resentment!
Then, I said, my lord will return true to his promises, as Spring to her revolving period;
But now, alas! full well I know that all is vanity!
I turn my head, and lean against the railing, the painful spot of long farewell—
And all my sorrows for ten thousand years I lay at the door of the false and cruel wind!"

*An Indian's Choice* Tommy Infant, the Indian arrested in Monroe county last week for killing his wife, said he did not like to be hung, rather be "shot quick," but would prefer *burning* to either of the other methods of dying! "Build fire," said he, "and me walk into it!"

*The President Steamer*—A letter dated June 12, has been received at Paris, which says; Capt. Hammond, of the British brig Venus, which arrived here from Newfoundland on the 7th inst. reports that he had on his voyage from Cadiz to Newfoundland, in the middle of April last, passed a large steamer drifting on the ice, in which she must shortly after have been blocked up. The captain of the brig hoisted his number, and the steamer in answer the British flag The brig not having been reported by the steamer, which was endeavoring to proceed homewards captain Hammond supposes it must have been the President. He was obliged to make a circuit himself of more than a hundred and fifty miles, to avoid running into the same predicament.

We are glad that the difficulty which existed about the proprietorship of the Somerset Journal, and some other matters connected therewith, have been amicably arranged. This is right. We thought it could not be possible that our political friends in that quarter could be so wilful, so implacable, so impracticable as to waste their ammunition upon each other when they have a common cause to defend, requiring not only union but energy. If their organs of combativeness must have play, let them be directed against the Destructives.

## Adams's Venuis Water.

THE true Remedy! the Sovereign Restorative!! the grand producer!!! The subscriber informs the public that after FOURTEEN YEARS of study ten of which have been years of immense labor and difficulty, he has discovered the only true remedy against the loss, the sovereign restorative in case of a deficiency, and the grand producer of that most beautiful ornament of "the human form divine," THE HAIR!

That it may be known that this Venuis Water is an invaluable article, I will state that in the first years of my labors upon it, its application to the head for two consecutive seasons was necessary in order to establish a good growth of hair, but now only one season is required, so successful have been my improvements upon it! And I have the proud satisfaction of knowing that in the City of Bangor alone, *three hundred and forty heads* which were once bald, can, by the heavy growth of hair upon them, bear witness to the wonderful effects which this Venuis Water has produced within eighteen months!

I will add a few, of the certificates almost innumerable, which have been given me by individuals who have derived benefit from this Water.

Mr. T. D. ADAMS, Having availed myself of the extraordinary benefits of your Venuis Water, I feel it my duty to the public, as well as to yourself, to submit for their perusal, a plain statement of the facts in my case. I had been entirely bald for seven years, and had lost my eye-brows, during which time I tried the remedies of three physicians without any benefit.

In reading over the advertisement of your celebrated Venuis Water, I concluded to try it, and now am the proprietor of a fine head of hair and a beautiful pair of eye-brows.

MISS ELIZA WORTHINGTON.

Bangor, May 8, 1841.

This is to certify, that I have used Mr Adams' Venuis Water for baldness of the head, and that it has restored me a good head of hair, where before using it the hair was entirely gone. I also have used other medicines which have started the hair, but it would come out again. But the Venuis Water has restored it so that it is as strong and stronger than before I first lost it. And to all those who are troubled with baldness, I would say be sure and call on Thomas D. Adams, and try it immediately, and you will have your hair growing again forthwith. ARTEMAS J. EGERY.

Bangor, May 14, 1841.

This may certify, that for the last six months I have used T. D. Adams' Venuis Water, and have the satisfaction to say that the top of my head, which for a long time was bald, is now entirely covered with a good growth of hair.

EDMUND HOLT.

Bangor, February 25, 1841.

I hereby certify that for the last two or three years my head has been bald, and that during that period, I have used a great number of applications recommended for their efficacy in restoring the hair, from which I have never received any benefit, some even having proved injurious, until the past summer, I made use of Thomas D. Adams' Venuis Water, which has entirely exceeded my expectations, and covered my head with a strong growth of hair. HANNAH PALMER.

Bangor, May 15, 1841.

This may certify that the hair upon the top of my head, being nearly gone and the remainder fast dropping off daily, I was induced by Mr. T. D. Adams, to try his Venuis Water, and during the last year he has made frequent applications of it to my head. I have now a considerable growth of new hair, produced, as I suppose, by the use of his remedy. E. HARRIS.

Bangor, Feb. 8, 1841.

This may certify that I called on Mr. T. D. Adams in May, 1836, I used his Venuis Water for three months and it has produced as much hair as I wish to have on my head.

Bangor, Sept. 1837. NANCY SMITH.

This may certify that my head was entirely bald, and by the use of T. D. Adams' Venuis Water for three months my hair has been restored.

Bangor, Feb. 15, 1841. CALEB B. HOLMES.

I have used Mr. Adams's Venuis Water, for the growth of the hair for about six months, and am happy to say that it has answered every purpose in producing a good head of hair, and prevent the hair from coming out by combing.

Bangor, Feb. 8, 1841. MARY JONES.

This may certify that for the last six months I have used Adams' Venuis Water and have the satisfaction to say that the top of my head which for a long time was bald is now entirely covered with a good growth of hair.

Bangor, Feb. 12, 1841. WM FROST.

This may certify that for the last twenty years the top of my head had been bald, but now is well covered with a good growth of hair, I used the Venuis Water for four months.

Bangor, Feb. 15, 1841. E. B. WARREN.

This certifies that I have used a preparation made by Mr. Thos. D. Adams of this city, to restore hair to the head, after it had fallen off, and having derived much benefit from it, I would cheerfully recommend its use to others.

Bangor, Feb. 16, 1841. A. HOLTON.

## Important Caution.

It is a singular fact and one much to be regretted, that valuable medicines, as soon as they become popular, and have received the test and approval of a discriminating public, are sure to be counterfeited, and thus a bad and spurious article is immediately palmed upon the unsuspecting as the genuine. This has been, and is, with all popular and truly valuable medicines for years past, and will probably continue to be the case for years to come.

The base and contemptible counterfeiter in this way meanly takes advantage of all the efforts and the advertising used by the proprietors of the genuine article to get their medicines into use and deserved popularity. It is therefore not less the duty than it contributes to the safety of every honest individual in the community, to expose, frown down, and forever after distrust all heartless ingrates, who thus irresponsibly trifle with health and life.

### THEREFORE TAKE NOTICE.

There is a person by the name of J. B. ROCHEFORT, now engaged in selling a Pill done up in boxes in exact and perfect imitation of the genuine INDIAN VEGETABLE PILLS, with the omission of only one word on the boxes viz. WRIGHT. The Pills sold by this Rochefort are evidently intended as a fraud and imposition upon the community or they would not have been done up in such exact imitation of the genuine. This person is tall and blustering, with a great Theatrical swagger. He was recently known as a very poor player in Baltimore, under the musical cognomen of Jim Brown, and is about twenty five years of age. It is almost beyond a doubt that he is supplied with the Pills from a Druggist firm in this city, who have been heretofore notoriously connected with counterfeit medicines. As soon as proof is obtained, the fountain head of this nefarious business will be exposed, that the community may shun them as they would a serpent

IN THE MEAN TIME THE PUBLIC ARE CAUTIONED

against buying WRIGHT'S Indian Vegetable Pills of any one who does not exhibit a certificate of agency signed by the agent for the New England States, and bearing date since January 1, 1840. Also take particular notice that the following wording is on the Boxes

WRIGHT'S *Indian Vegetable Pills* (Ind-Purgative) of the North American College of Health.

THE INDIAN VEGETABLE PILLS are a certain cure for disease in its every variety of form, because they thoroughly cleanse the stomach and bowels, induce a proper discharge by the lungs, skin and kidney, and stimulate the blood to purify itself. In other words they open all the natural drains, and leave NATURE (THE GRAND PHYSICIAN) free to drive disease from the body. The above outlets, or drains, are the common sewers of the body, through which all morbid and corrupt humors (the cause of disease) are carried off and so long as they are all kept open, and discharge freely their alloted portions of impurity the body will continue in health; but when from eating improper food, breathing impure air, sudden transitions from heat to cold, over exaustion, or any other cause, the bowels become costive, the pores of the skin become closed or the kidneys fail to perform their functions properly, the impurities which should be drained from the body by those outlets will be retained, and continue to accumulate until the body becomes literally loaded with disease.

The above pills may be taken at all times, and under all circumstances, with perfect safety. They suit all complaints and all ages, and are as natural to the human constitution as food, consequently they can never injure even the most delicate. Like good food they are digestible; therefore they enter into the circulation, and impart an energy to the blood which enables it to flow with freedom quite to the extremities, and consequently to keep the pores of the skin open. They are true and perfect purifiers of the blood; because they drain all corrupt humors from that life giving fluid. They impart strength and vigor to the whole system, and their effects are always beneficial; because they only remove those humors which are opposed to health. They aid and improve digeston, and sound sleep follows their use; because they cleanse the stomach and bowels of their slimy humors which not only irritate and excite the nervous system, but paralyze and weaken the digestive organs. In short they possess all the good properties that can be claimed for any medicine; and what is very remarkable, it is utterly impossible to use them without benefit.

## CONSUMPTION AND LIVER COMPLAINT.

BALSOM OF LIVERWORT

DR. TAYLOR'S BALSOM of LIVERWORT has been used successfully for eight years in the Cure of these Diseases. ☞ Remember! the original and genuine is made ONLY at 375 Bowery, New York, ALL others are spurious and unauthorized.

CONSUMPTION & LIVER COMPLAINT.

As a general remedy for these diseases, I am fully satisfied from long experience, there is no medicine equal to Dr. Taylor's Balsom of Liverwort. Being purely vegetable, it can be used with the utmost safety by all persons in every condition. It cleanses the lungs by expectoration, relieves difficult breathing, and heals the chest. There can be no question, but this medicine is a certain cure for chronic coughs and colds. I have used it for four years in my practice, and always with success.

A. F. RODGERS, M. D.

☞ SPITTING OF BLOOD. This disease consists of a discharge of blood, often frothy, from the mouth, brought up with walking and coughing, and is usually accompanied with difficulty of breathing, and some pain in the chest. Sometimes it is preceded by an oppression at the chest, a dry tickling cough and slight shooting pains. This disease is always more or less dangerous. The great danger is that these symptoms may terminate in consumption, and immediate remedies can alone save this end. But Dr. Taylor's Balsom of Liverwort is a sure remedy, and to shew its unparallelled success, certificates of cures from 121 citizens, and many physicians, will be published in a few days.

☞ NERVOUS DISEASES AND WEAKNESS Dr. Taylor's Balsom of Liverwort made at 375 Bowery, is assuredly an excellent remedy for these diseases. My wife has been more or less ill for ten years. She was extremely nervous and at times so weak that she could not attend to her domestic duties. By the use of this medicine, her strength is wholly restored, and she is as healthy as I can wish her to be. My address is at Dr. Taylor's office.

CURE OF CONSUMPTION. Mrs Martin, a worthy member of my congregation, was taken ill some time since with a cold, pain in the breast and some difficulty of breathing, and in a few days thereafter she had a violent cough and violent pain in the sides, which no medicine would relieve. She continued in this way for a long time under the medical care of Dr. Rea, but finally became consumptive, and was evidently near the end of her earthly sufferings, when her brother persuaded her to try Dr. Taylor's Balsam of Liverwort. When she commenced this medicine it did not seem to agree with her for a few days, but by lessening the dose she found it answered admirably, it relieved her cough and her difficulty of breathing instanter, and we had the pleasure of witnessing her rapid recovery to health.

*NEW AND IMPORTANT DISCOVERY.*

## DR. PHELPS' COMPOUND TOMATO PILLS,

(ENTIRELY VEGETABLE.)

*A New and Invaluable Medicine for all Diseases arising from Impurities of the Blood, Morbid Secretions of the Liver and Stomach; also, a*

## Substitute for Calomel;

*as a Cathartic in Fevers and all Billious Affections.*

THESE popular Pills being a combination of a newly discovered Alkaline substance, extracted from the TOMATO PLANT, with other vegetable substances which have been found to modify and diffuse its effects, are believed to be the best Alterative and Cathartic Medicine ever discovered. They have been abundantly and successfully tried, and have received universal approbation for Scrofula, Dyspepsia, Jaundice, Billious Diseases, Gravel, Rheumatism, Coughs, Colds, Influenza, Catarrh, Nervous Diseases, Acid Stomachs, Glandular Swellings of all kinds, Costiveness, Cholic, Headache, &c.

They are an antidote to Contagious and Epidemic diseases; prevent the formation of Billious and Liver affections Fever and Ague, &c., in those who reside in hot climates, and low and marshy countries, and are the best Cathartic that can be used for those localities. Seamen will find them an infallible remedy for the Scurvy, and Travellers, the best medicine they can use to counteract the dangers of exposure in unhealthy climates For ordinary Family Physic, they are universally approved, as the best ever offered.

These Pills have a powerful and salutary operation upon the Glandular System, removing all obstructions from the Gland, wherever situated, Scirrosities and Scrofulous Taints in all their forms, and if persevered in, no case of Scrofula, however severe, can resist its influence. It is in their operation on the Glandular System, that their effects are so peculiar and potent, and so nearly resemble that of Calomel. In fact, the Tomatine has all the Alterative Deobstruent and Cathartic properties of Calomel, without ever producing unpleasant or injurious effects under any circumstances, either from exposure to cold or wet; on the contrary, the Compound Tomato Pills are the best remedy ever known to counteract the effects of Mercury, completely eradicating every particle of it from the system, and renovating the constitution broken down by its use; which it does by correcting the state of the blood, and through that, correcting the morbid secretions of the glands, and restoring them to a healthy and their own proper action. Its effects are analogous to Sarsaparilla and Blood Root, and in its combined action in the ingredients composing the Pills, it exerts a universal action peculiar to itself.

The peculiar virtues of the Tomato Plant, have for a long time attracted the attention of the Medical profession and the Public, and a lively interest has recently been directed to the future developement of its active powers, and its Antibilious and Alterative qualities; which the Proprietor is now happy in being able to gratify and presents his Pills to the Public, with the full confidence of their being the most safe and valuable remedy ever discovered adapted to all cases where nature is disturbed, and when any of the functions do not perform their natural or healthy action.

Numerous certificates of cures, from those who have taken them, and the testimony of several Physicians who have prescribed them, all concur to corroborate this opinion. The rapidly increasing demand for, and the universal approbation bestowed upon them, is an additional evidence of their merits and usefulness.

In presenting this article to the public, the Proprietor was indoenced by the hope that a medicine prepared with much care, and strict regard to the Chemical and Therapeutic properties of its several ingredients, should take the place of the thousand and one irresponsible nostrums of the present day, with which the country is deluged, and from the favor already bestowed upon it by physicians and others, he feels justified in expecting this result.

Often have the cures performed by this medicine been the subject of editorial comment, in various newspapers and journals, and it may with truth be asserted that no medicine of the kind has ever received testimonials of greater commendation than are attached to this.

Females from forty to fifty years of age will find them a powerful assistant to nature, in the important change in the functions of the system, removing liabilities to Cancers, glandular swellings, &c., and assisting to establish that new action in the animal economy which nature often fails to do. None should avoid a free and continued use of them, if they wish to escape a long train of incurable maladies. For this purpose one should be taken every night and morning, and continued as long as any unpleasant symptoms remain.

For that congested and deranged state of the system which occurs in the commencement of Spring and Summer, these Pills of are particularly applicable, in preventing Rheumatism, Coughs, congestion of the lungs, &c., and have prolonged many a life that otherwise would have been a sacrifice to the changes of the season.

Those persons liable to sore throats, swelling of the glands, coughs, and other symptoms indicating Scorofula or Consumption, should take warning in season, and embrace a remedy, which, while it is searching out and eradicating disease, makes no deductions from the vital powers of the system.

As a Dietetic or Dinner Pill, one taken half an hour after dinner, will sufficiently stimulate the digestive powers of the stomach to a healthy and invigorated action, and they are found extremely serviceable for those who indulge in long dinners, or late suppers, or immoderately in desserts or fruit.

☞ For a full account of this interesting discovery, testimonials, mode of operation, &c., see pamphlets in the hands of all who sell these Pills.

*** Enquire for PHELPS' TOMATO PILLS, and be particular to observe that the label is signed G. R. PHELPS, M. D. Price 37 1-2 cents, with full directions accompanying each Box.

New Medicine. An Alkaline principle called Tomatine has been discovered in the Solanum class of plants, particularly in the Tomato, which promises to be of peculiar service in Lung Affections, Scrofula, and Glandular obstructions, particularly of the Liver also an antidote to Mercury. It is embodied in the Compound Tomato Pills, which are truly worthy of a trial.

*From the Patriot & Democrat.*

PILLS. Unlike the numerous speculations of the day, there is one medicine which deserves the popularity and patronage it is receiving. We allude to Dr Phelps' Compound Tomato Pills. Judging from the patronage they are receiving from the Medical faculty, and the approbation with which they have been received, we doubt not they will soon supercede all others in use, as a family medicine. Being introduced by a respectable and practical member of the Medical profession, and possessing character in this vicinity is a sufficient guarantee for the character of his medicine, we are enabled thus confidently to speak of it, and fully believe it is entitled to the confidence of the community.

From the N. Y. Transcript.

COMPOUND TOMATO PILLS.

Dr. Phelps, of Hartford has brought into successful use a most invaluable medicine in the Pill form the chief component of which is derived from that healthy and pleasant vegetable, the Tomato. As this plant is known to possess medicinal virtues of a high order, as well as a large amount of nutriment, so the medicines into which it is compounded, is known to be powerfully available as a curative remedy in morbid secretions of the Liver and Stomach, impurities of the blood, and diseases of a billious type generally. It is an excellent substitute for calomel, as an anti-billious and cathartic medicine without its injurious properties, and has been found extremely efficacious in the cure of a long catalogue of diseases. Having adventured upon the use of this medicine ourselves, we cordially recommend it to others.

## CONSUMPTION.

DR. ALLEN'S BALSAM of Horehound, Liverwort, and Pleurisy Root, for CONSUMPTION AND LIVER COMPLAINT, Colds, Coughs, Spitting of Blood, Catarrh, Asthma, Difficult Breathing, Pain in the Side, Palpitation of the Heart, Oppression and Soreness of the Chest, Pleurisy, Hectic Fever, Night Sweats, Difficult or Profuse Expectoration, and all affections of the Chest, Lungs and Liver.

The Hoarhound, Liverwort, and Pleurisy Root have for centuries been celebrated in the cure of diseases of the Lungs and Liver.

Dr. B. D. Allen, after a series of experiments has been able to extract from these medicines a balsam, which exerts a most wonderful influence in curing Consumption and Liver Complaint, and other diseases of the Lungs and Chest. So great has become the reputation of Dr. Allen's Balsam, that it is now used in the New York, Philadelphia and Baltimore Hospitals, and in private practice of our most eminent medical men.

For children laboring under Inflammation of the Lungs, Colds, Coughs, Croup, Quinsy, &c. &c. That this Balsam is of great importance the number of deaths among children from these diseases is truly alarming. If parents wish to save the lives of their children, and themselves much anxiety, and expense, let them procure Dr. Allen's Balsam; and whenever a child has a cold, has any fever, cough, or hoarseness, give a teaspoonful of this medicine, and repeat if necessary; even one teaspoonful will often effect an entire cure. During the winter of 1839, more than one thousand families employed this remedy in the city of New York. The consequence was, the number of deaths among children was reduced to less than one half the usual number, as may be seen by the city inspector's report of deaths.

In order to give the reader some idea of the efficacy of this Balsam, and how extensively it is used, we here introduce the monthly report of the cures performed in the month of May, 1839, as published by the agent, and published in the New York Sun.

OPINIONS OF THE MEDICAL FACULTY.

At a meeting of the Medical Society of Washington County, the following Resolution was unanimously passed:

Resolved. That from a knowledge of the composition of Dr. Allen's Balsam of Hoarhound, Liverwort and Pleurisy Root, and the most astonishing effects we have seen it have upon our patients, it is our decided and unanimous opinion that it will cure Consumption and Liver complaint, and we do strongly recommend it to the sick and the public generally.
